

BABY SLIDE SENIOR

Instructions

Maintenance:

- Before each use, ascertain that all the fasteners are firmly tightened and all the parts are securely fastened.
- Always wipe the product with a plane, dry cloth regularly and avoid using harsh chemicals.

Caution:

- The product must be assembled by an adult only. Keep all the parts out of the reach of kids until the product is fully assembled.
- Always sit upright and go down feet first on the slide. Climbing up the side, sliding down headfirst or in the standing position can be fatal and should be avoided at all costs.
- Always place the product on an even surface. Using it on concrete or a rough surface can make it unsteady and may cause injuries.
- Packaging materials are not safe to play with and should be kept away from kids.
- Adult supervision is recommended when kids are using the slide.

Warnings:

- Always assemble on a non-abrasive surface, ideally a carpet, to avoid scratches and make sure there are no sharp objects placed nearby.
- Avoid over-tightening the nuts as it may cause damage to the parts.

Assembly Instructions

Required Assembly Parts

Side Panel x 1

Nut x 4

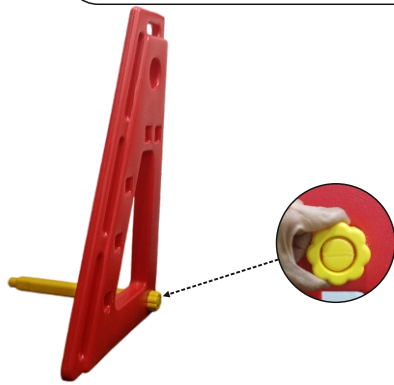

Support Bar x 1

Step x 3

Before starting the assembly, lay out a carpet on the floor to avoid scratches.

Take the support bar and a side panel from the packaging. Align the threaded pin on the edge of the support bar with the designated hole on the side panel. Push the support bar sideways towards the side panel, guiding the threaded pin through the corresponding hole of the side panel. Put a nut onto the protruding end of the threaded pin and tighten the nut, securing both the right panel and the support bar together.

Take all the three steps from the packaging and fasten them one by one to the side panel with big nuts, using one nut per step.

2 STEP

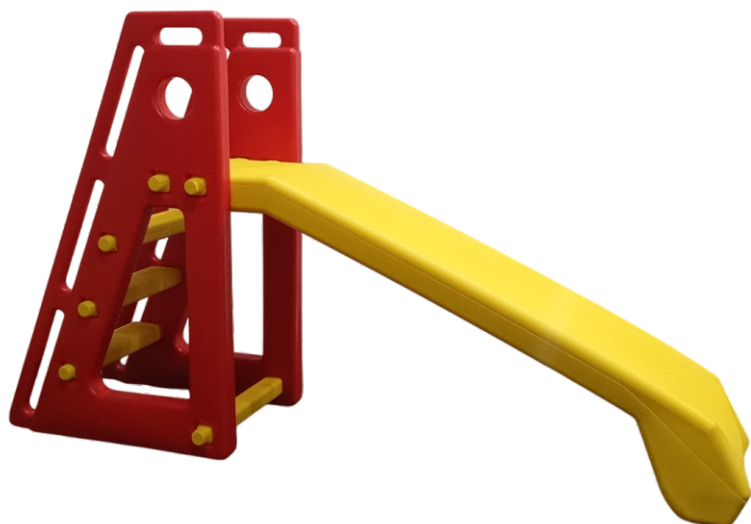

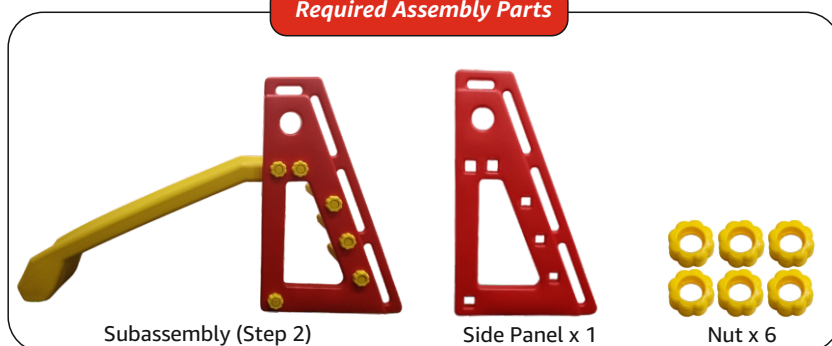

Required Assembly Parts

- Take the slide, align the two threaded pins on its top edge with the designated holes on the subassembly (step 1).
- Push the slide sideways towards the subassembly, making sure the threaded pins of the slide pass through the designated holes and extends out the other side.
- Put a nut onto the protruding end of each threaded pin and tighten, securing both the side and the subassembly (step 1) together.

3 STEP

Required Assembly Parts

Take the other side panel from the packaging and secure it to subassembly (assembled in the previous step) with six nuts.

Baby Slide Senior is now ready for use! Get ready for fun!
