

CLASSIC SCOOTER TRAMPOLINE

Instructions

Maintenance:

- Before each use, ascertain that all the fasteners are firmly tightened and all the parts are securely fastened.
- Always wipe the product with a plane, dry cloth regularly and avoid using harsh chemicals.

Caution:

- The product must be assembled by an adult only. Keep all the parts out of the reach of kids until the product is fully assembled.
- For safety, kids should always face forward while riding the rocker.
- Always place the product on an even surface. Using it on concrete or a rough surface can make it unsteady and may cause injuries.
- Be sure to hold onto the handles while using the rocker.
- Packaging materials are not safe to play with and should be kept away from kids.
- Adult supervision is recommended when kids are using this product.

Warnings:

- Always assemble on a non-abrasive surface, ideally a carpet, to avoid scratches and make sure there are no sharp objects placed nearby.
- Avoid over-tightening the nut as it may cause damage to the parts.

Warning: Before using as a Ride On, ensure no nut is fixed between the rear wheels.

Assembly Instructions

Required Assembly Parts

Ride On Body Assembly x 1

Backrest x 1

Push Handle Bar x 1

Big Nut x 2

Safety Ring x 1

Before starting the assembly, lay out a carpet on the floor to avoid scratches.

Take the rideon body assembly and the backrest. Align the two threaded pins at the rear of the rideon body assembly with the designated slots on the backrest and push the backrest, guiding the threaded pins through the holes.

DISCLAIMER: ACTUAL PRODUCT COLOR MAY VARY FROM THAT SHOWN IN THE IMAGE

Take the safety ring and position it between the two threaded pins protruding from the backrest as shown in the image.

Note: Make sure the safety ring is placed correctly with its threaded section positioned precisely between the threaded pins at the rear of the rideon body assembly.

Take the back support bar and align the two holes near its bottom with the threaded pins. Put a nut onto the end of each threaded pin and tighten, securing all the four parts (rideon body assembly, backseat, safety ring and back support bar) together.

Your Classic Scooter Ride On is now ready for use.

Required Assembly Parts

2 STEP

Subassembly (Step 1)

Nut x 1

Rocker Base x 1

Take the ride on subassembly (assembled in step 1), align the hook between the front wheels of the subassembly with the slot at the front on the rocker base and firmly push the subassembly downwards until the hook is fully inserted into the slot.

Align the threaded pin between the rear wheels of the subassembly with the designated slot on the rocker base and push the subassembly downwards, guiding the threaded pin through the hole. Tighten a nut onto the threaded pin to secure both the subassembly and the rocker base together.

3 STEP

Required Assembly Parts

Subassembly (Step 2)

Spring x 4

Clip x 4

Stand x 1

Fasten four clips to the rocker base at the designated slots as shown in the image and place the subassembly (step 2) on the stand. Take a spring and hook its one end securely onto the clip. Stretch the spring slightly and hook the other end onto the clip attached to the rocker base. Similarly, hook the other three springs onto their respective clips on the rocker base.

Your Classic Scooter Trampoline is now ready for fun-filled rides and non-stop fun!
