

SCOOTER ROCKER COMBO

Instructions

Maintenance:

- Before each use, ascertain that all the fasteners are firmly tightened and all the parts are securely fastened.
- Always wipe the product with a plane, dry cloth regularly and avoid using harsh chemicals.

Caution:

- The product must be assembled by an adult only. Keep all the parts out of the reach of kids until the product is fully assembled.
- For safety, kids should always face forward while riding the rocker.
- Always place the product on an even surface. Using it on concrete or a rough surface can make it unsteady and may cause injuries.
- Always hold onto the handles while using the rocker.
- Packaging materials are not safe to play with and should be kept away from kids. .
- Adult supervision is recommended when kids are using this product.

Warnings:

- Always assemble on a non-abrasive surface to avoid scratches and make sure there are no sharp objects placed nearby.
- Do not connect any external item (chain, rope or cables) to the product.
- Avoid over-tightening the nut as it may cause damage to the parts.

Warning: Before using as a Ride On, ensure no nut is fixed between the rear wheels.

Assembly Instructions

Required Assembly Parts

Ride On Body
Assembly x 1

Backrest x 1

Push Handle x
1

Nut x 1

**Before starting the
assembly, lay out a
carpet on the floor
to avoid scratches.**

Take the rideon body assembly and the backrest. Align the threaded pin at the rear of the rideon body assembly with the hole on the backrest and push the backrest, guiding the threaded pin through the hole.

Take the push handle, align the hole near its bottom with the threaded pin protruding from the backrest and tighten a nut, securing all three parts together.

Your Scooter Ride On is now ready for use.

2 STEP

Required Assembly Parts

Subassembly (Step 1)

Nut x 1

Rocker Base x 1

Take the ride on subassembly (assembled in step 1), align the hook between the front wheels of the subassembly with the opening at the front on the rocker base and firmly push the subassembly downwards until the hook is fully inserted into the opening.

Align the threaded pin between the rear wheels of the subassembly with the hole on the rocker base and push the subassembly downwards, guiding the threaded pin through the hole. Tighten a nut on the threaded pin to secure both the subassembly and the rocker base together.

Your dual-purpose Scooter Rocker, serving as both a ride on and a rocker, is now ready for use.

Warning: Before using as a Ride On, ensure no nut is fixed between the rear wheels.
